12th is for the other one, still waiting to hear how much longer [redacted] wants for the McCord paper. Frustrating, but at the current time out of our control...

Andy,

Is October 12th the new deadline for [redacted] Ex. 5 Deliberative Process (DP) or James' manuscript? Or is that for the other deadline they are working on? Tough to tell from the email.

Mark

No. Just today, Ex. 5 Deliberative Process (DP) requested additional time to review the manuscript after I sent them a reminder on Friday. Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) CSS gave them until Oct 12 for this deadline. For both delays, OGWDW states that they are diligently working on the PFAS management plan. I'm meeting with Benita tomorrow morning and will follow up with her.

Are we done with this one yet? Oct 5 was the reply by date, correct?

Subject: Advance Notification - McCord / PFAS Cape Fear River non targeted

Suzanne,

Attached is much-anticipated manuscript on the non-targeted work and methods related to PFAS and the Cape Fear River. Advance Notification to Ex. 5 Deliberative Process (DP) noting that most of these partners have already been engaged in earlier versions of the research and manuscript.

The goal of this pre-notification is to ensure there are no policy statements contained within the product or factual errors regarding programs and to avoid surprises of published data relevant to the activities of our program and regional partners.

Andy – I added a cut-paste to create an OW-specific Fact Sheet.

Bruce Rodan

Subject: High Profile Product - McCord / PFAS Cape Fear River non targeted

Hi Bruce et al – here is a high profile product from NERL, an SSWR product telling the story of the EPA nontargeted work in the Cape Fear River on GenX and other PFAS chemicals. Likely of interest to Ex. 5 Deliberative Process (DP). Ex. 5 Deliberative Process (DP) (partners in the work) have seen the manuscript for awareness. Details below.

Regards, Andy
